

## CALLING ALL MISSOURI K-9 TEACHERS!!!

*"You can't go wrong attending this one!"*

*"This is by far the best workshop I have ever attended in my 20 years of teaching."*

*"I'm excited about taking these activities back to the classroom!"*

*"Can I come back next year?"*

*"Everything and everyone was great! We were treated like royalty!"*

The Missouri Minerals Education Foundation invites you to participate in the 12<sup>th</sup> Annual **"Missouri is a State of Mines – Rocks, Minerals and our Environment"** workshop to be held at Missouri State University, Springfield, Mo. from Sunday, July 17, through Friday, July 22, 2011.

This free workshop provides information, ideas, materials and classroom activities involving geology, minerals, mining, and the wise use of our natural resources that participants can immediately begin using in the classroom. Activities include demonstrations, exhibits, and tours of mine operations. Learn first hand from industry representatives about down-to-earth science. All of the hands-on activities and classroom presentations are tied to the Missouri Standards as well as Missouri's new Grade Level Expectations. Lunches and most evening meals will be provided each day along with plenty of hospitality, entertainment and time to interact with fellow teachers.

The workshop is open to all K – 9 grade teachers and administrators who live or teach in Missouri, but it is limited to 60 participants. Participants may elect to receive two undergraduate credits, two graduate credits or CEU's/PDU's from Lincoln University. Undergraduate and graduate credits will be \$77.00 (preliminary) per credit hour through Lincoln University. CEU's/PDU's will be available at a reasonable cost. **A limited number of scholarships will be available on a first-come, first-served basis to help offset your travel, lodging or other expenses.**

To reserve a space, send completed registration form and a deposit of **\$25.00** to (deposit will be returned at workshop check in):

**(Make check payable to MMEF)**

Rhonda Reed, Missouri Minerals Education Foundation
